Project: Repair or Partially Replace a Wood Fence

Comments: The pro was very polite, courteous and informative keeping me abreast of what was needed to complete the repair. I would recommend Splitrail Fencing Company to both my family and friends for new, replace or repair fencing. Job well done.

Project: Install or Repair Fence

Comments: Company owner and employees were on time, respectful of our property and did a great job installing our new split rail fence with wire. Cleaned up well. We would definitely recommend this company to others. They didn't scare us with a low price nor did they try to kill us financially! They were in the middle which gave us more confidence.

Project: Install a Wood Fence

Comments: I hired Split Rail Fence for my new fence project. The estimate was quick and fair. I was on the schedule fairly quickly afterwards. The new fence was installed by 2 sub contractors; they did an acceptable job. I'm pleased with the work.

Project: Install a Wood Fence

Comments: Very professional to work with. The installers were friendly, efficient and hard working. (Fencing seems to be very expensive with all companies and I did choose the most expensive fence option they gave me- so my rating for "value for money" may be a bit skewed.) I have already recommended them to others.
